## Technologies

### Node.js

### Java

### Vue.js

### React

### PostgreSQL

## Recognitions

 9th place in the Recode Pro Hackathon 2022, among a total of 137 projects.

 Selected among 13,000 applicants for one of the 18 trainee positions in the Programa de Formação 5.0 by Grupo FCamara.

# Larissa Ferreira

## FULL-STACK DEVELOPER JR

### Profile

I am passionate about technology and firmly believe in its transformative potential. As a full-stack software developer, I have accumulated experience in front-end development (Vue.js and React) and back-end development (Node.js), and I am constantly seeking ways to improve my skills. My professional goal is to elevate my knowledge and continue working as a Back-end and/or Front-end Software Developer.

### Education

#### Cubos Academy

Back-End Development | Jun de 2023 - Nov de 2023

- Development of REST APIs, Node.js, PostgreSQL.

#### Digital House

Front-End Web Development | May 2022 - Sep 2022

- The course covers programming fundamentals, JavaScript, HTML, CSS, front-end JavaScript, and React.

### Professional Experience

#### Full-Stack Developer

Betabit | Mar de 2023 - Mar de 2024

- Enhanced the development of applications using Vue, React, Node.js, TypeScript, and Git.
- Identified and resolved bugs, and added new features to existing projects.

#### Full-Stack Developer

FCamara | Mar 2024 - Present

- Vue, Java, Node.js, MongoDB, and Git.

### Projects

#### Orange Portfolio

Feb 2024

- This project is a portfolio developed during a hackathon. It allows users to publish and share their projects in an interactive gallery.
